This application is abandoned in view of:

1. ☒ Applicant's failure to timely file a proper reply to the Office letter mailed on 8/28/06 and 11/3/06.

 - (b) ☐ A proposed reply was received on _____, but it does not constitute a proper reply under 37 CFR 1.113 (a) to the final rejection.
(A proper reply under 37 CFR 1.113 to a final rejection consists only of: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114).
 - (c) ☐ A reply was received on _____ but it does not constitute a proper reply, or a bona fide attempt at a proper reply, to the non-final rejection. See 37 CFR 1.85(a) and 1.111. (See explanation in box 7 below).
 - (d) ☒ No reply has been received *that corrects noted deficiencies and places application in condition for allowance. nah*
2. ☐ Applicant's failure to timely pay the required issue fee and publication fee, if applicable, within the statutory period of three months from the mailing date of the Notice of Allowance (PTOL-85).
 - (a) ☐ The issue fee and publication fee, if applicable, was received on _____ (with a Certificate of Mailing or Transmission dated _____), which is after the expiration of the statutory period for payment of the issue fee (and publication fee) set in the Notice of Allowance (PTOL-85).

Petitions to revive under 37 CFR 1.137(a) or (b), or requests to withdraw the holding of abandonment under 37 CFR 1.181, should be promptly filed to minimize any negative effects on patent term.

Item 7 - Other reasons for holding abandonment: In accordance with 37CFR 1.111 (b) and (c), a reply must address all rejections in prior action including presenting arguments pointing out the distinctions believed to render the claims, including any newly presented claims, patentable as noted in Notice and further, must provide support for any amendment to claims from originally filed disclosure. However, in the reply filed 1/3/07 and 8/28/06, no remarks are provided regarding patentable distinction over the references in combination under 103 obviousness holdings and the stated support of fig. 11, page 39 and 52-53 does not address all steps/features in form as presently claimed. Further, per MPEP 714.03, once an inadvertent omission is brought to the attention of the applicant (as was provided in Notice mailed Nov 3, 2006), the question of inadvertence no longer exists and a second office action giving another time period to supply the omission would not be appropriate under 37 CFR 1.135(c). In this case, the reply received Jan 3, 2007 does not correct the deficiencies stated in cited Notice, thus it cannot be deemed to be a bona fide attempt to advance prosecution and inadvertence as stated in 37 CFR 1.135(c) no longer exists, therefore, the examiner is without authority to postpone decision as to abandonment of this application per MPEP 714.03.
